## **VSP Vision Care Resources for Impacted Members**

With the fires in Southern California, VSP has reached out to make us aware of the resources available to Local 12 members. VSP Vision Care are working directly with network doctors, business partners, and relief agencies, including the American Red Cross, to assess the situation and fulfill the eye care needs of those directly affected.

If the recent disaster has impacted any of our VSP members, no-cost eye care and replacement eyewear is available. Here's what VSP is doing to assist with those affected by the fires:

- Any VSP member who has lost or broken their eyewear due to the SoCal fires can call VSP's Member Services Support Line at 800.877.7195 to have their Lenses and Frames benefits reinstated.
- Individuals without VSP coverage can contact their local American Red Cross chapter or shelter, or call 800.RED-CROSS (800.733.2767) to ask about support for replacement eyewear, which may include VSP Eyes of Hope gift certificates or an alternative solution.

Also refer to the below website link below, which is up 24/7.
